

THE THERMO

- Inspired by the Welch Allyn Suretemp Plus 690.
- Allows you to simulate a temperature measurement.
- Compatible with low, medium, high-fidelity manikins or with a simulated/standardized patient.
- The oral and rectal probes are compatible with Welch Allyn probe covers.
- Comes with USB-C cable, an oral probe and a wall charger. A rectal probe can be included if mentioned when an order is placed.
- Powered by a rechargeable Lithium-ion battery (4-hour autonomy).
- Works in °C and °F (must be mentioned when ordering).
