

Innov2Learn

The True-Feel Simulated Point-of-Care devices

Designed for use with both Simulated Participants (SPs) and low- to high-fidelity manikins to boost engagement, realism, and communication between healthcare professionals, while avoiding shouting and "simulation scars."

Innov2Learn's Easy-To-Use App

REAL-TIME

Adjust readings in real time to match learner actions without pausing the scenario or breaking immersion.

PRESET

Preload a single reading per device so it is sent automatically when a detection is triggered.

BLAST

Send the same value to multiple selected devices at once for faster, smoother group scenarios.

AUTOMATION

With Auto-connect enabled, trigger-based readings are sent automatically without requiring a device connection, streamlining delivery and reducing missed cues.

INNOV2LEARN

No sticky notes.
No misleading cues.
No shouting.
No broken immersion.
No complicated setup.
No simulation scars.

Our SIM Products

Simulators

SKU:
GLU03

GLUCOIII

Hospital-format glucometer with large digits readable on ceiling-camera views; accepts any strip type (even expired) if it fits the slot.

SKU:
GLU04

GLUCOIII+

All the features of GLUCOIII, with double the battery life.

SKU:
GLM02

GLUCO-MINI

Compact glucometer with a bright display for close-up bedside scenarios.

SKU:
THE02

THERMO

Simulated oral and rectal temperatures for standard clinical workflows.

SKU:
THE03

THERMO+

All the features of THERMO, with double the battery life.

SKU:
FTH01

FOREHEAD-T

Contactless temperature for rapid triage, mass-casualty, and outbreak screening.

Simulators

SKU:
ETH01

EAR-T

Tympanic temperature aligned with common European clinical practice.

SKU:
OXI02

OXI

SpO₂ and pulse rate with synchronized waveform/bar graph on any finger: human or molded.

SKU:
SPO03

SPOTV II

Turns any patient monitor (working or not) into a controllable simulation display.

SKU:
PEB01

BABY-S

Pediatric scale simulator. Instructor-set infant weight on a pediatric scale, regardless of clothing, diaper, or handling.

SKU:
SDA01

SED-A

Sedation monitor with a realistic EEG signal to train and understand the most unusual situations.

SKU:
CO201

CO2-DETECT

Colorimetric CO₂ confirmation for ventilation and BVM technique training.

Simulation Enhancers

SKU:
VQK01

VOICEQAST KIT

Manikin voice changer or discreet one-way earpiece for SP cueing.

SKU:
CTR01

SYHM-CONTROLLER

Controls up to 16 simulators, regardless of their type, at once, from a single interface.

SKU:
DGL01

DONGLE

Extended-range control for distant control rooms, up to 150 m.

SKU:
REC01

RECTAL PROBE

High-fidelity core temperature capture for advanced realism.

SKU:
TPT01

SP TRIGGER

SP-activated trigger that automates preset readings (vs. on-the-fly control only) on THERMO/THERMO+ and SPOTV II
