Innov2Learn

WE MAKE TRUE-FEEL SIMULATED POINT-OF-CARE DEVICES

With Bluetooth connectivity, the instructor **controls** what every device shows in real time, from a single app, while students interact with equipment that looks and **feels** exactly like what they will find in a real clinical environment. The scenario becomes credible. The student responds as if it were real. That response is where the **learning** actually happens. Our products are used in universities, nursing schools, simulation labs, military training, and anywhere clinical or emergency skills need to be built before they are needed. People learn better when what surrounds them is real enough to take seriously. Our purpose is to elevate learning to its full potential. Our vision is a world where any skill can be mastered within minutes of encountering it.

HOW IT STARTED

In 2015 the CHUM, a Montreal hospital, needed a glucometer that an instructor could control remotely during a training scenario.

Mike Boutin, then finishing a microelectronics programme, took it on. A few weeks later, he had a working prototype. The hospital ordered one the following week. That was the beginning of a solution that turned out to be exactly what educators had been waiting for.
Innov2Learn was born.

Our Products

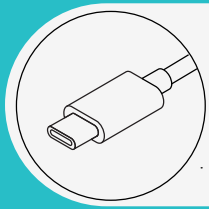

1-YEAR
Money-Back Guarantee

2-YEAR
Functional Warranty

1 CORAL PLANTED
For every device purchased

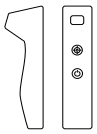

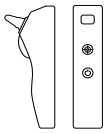

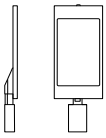

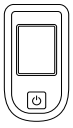

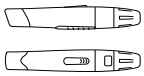

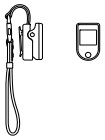

RENEW PROGRAM
We refurbish obsolete or damaged devices

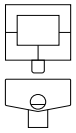

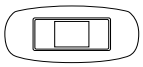

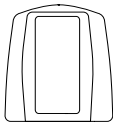

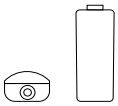

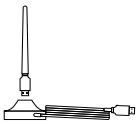

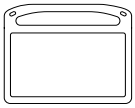

ALL DEVICES COME WITH A USB-C CABLE

FACILITATES TRAINING

Compatible with low, medium, and high-fidelity manikins or with simulated/ standardized patients.
The oral and rectal probes are compatible with Welch Allyn probe covers.

CONFIGURABLE MEASUREMENT

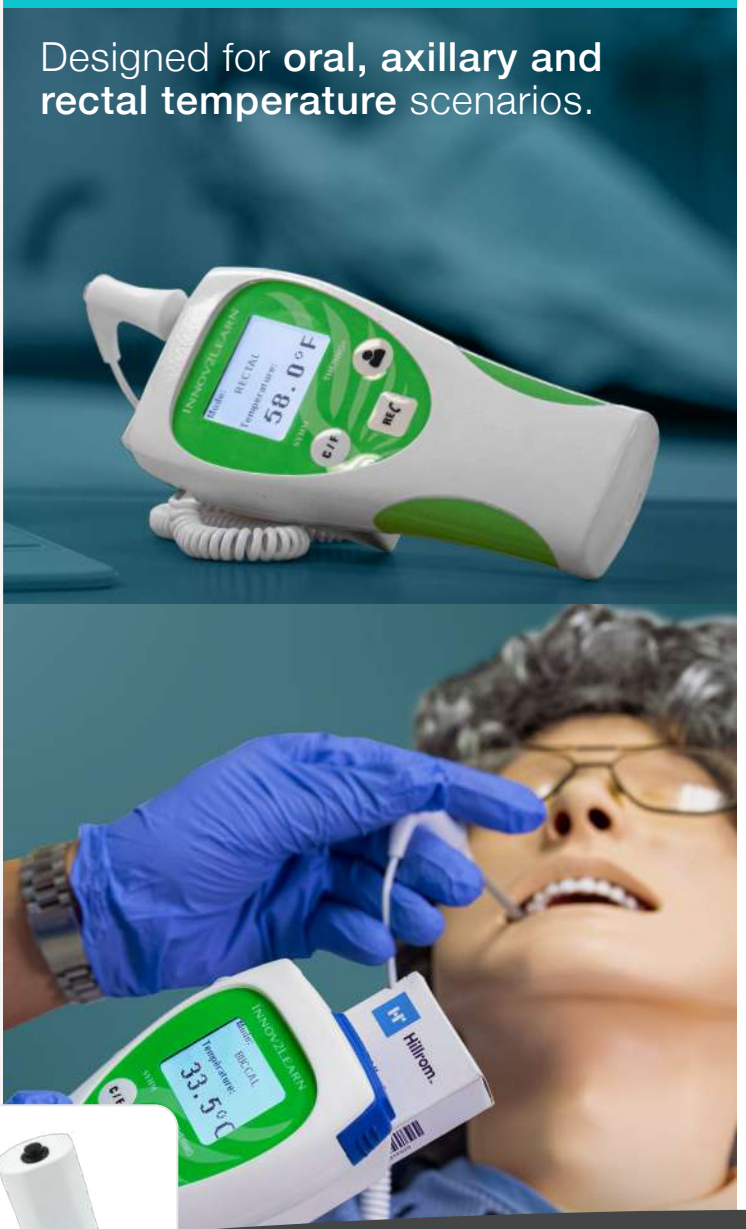

Works in °C and °F.

SOUND

An audible signal confirms when the temperature is displayed.

INCLUDED ACCESSORIES

Comes with an oral probe.
1m charging cable for Thermo
2m charging cable for Thermo +

FREQUENTLY BOUGHT WITH

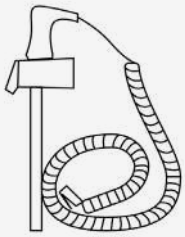

SP Trigger
SKU: TPT01

SKU: REC01

Rectal Probe

ACCESSORY
Thermo

FACILITATES TRAINING

Once plugged in, the Thermo or Thermo Plus will automatically switch to rectal mode.

Manikins or simulated patients.

Equipped with a powerful magnet to enhance the hold with the Thermo or Thermo+ device.

Designed to be used along with **Thermo or Thermo+** by a standardized/simulated patient.

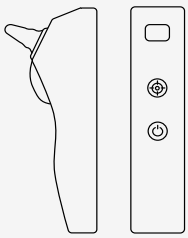

SHOP HERE

SKU: ETH01

Ear-T

SIMULATED TYMPANIC THERMOMETER

* NEW *RELEASE* *

ENABLES ADVANCED SCENARIOS

Allows a wide range of “temperature readings”.

Equipped with a trigger that enables both a notification on the instructor’s control app or the usage of the PRESET feature.

FACILITATES TRAINING

Beep on measurement.
Works with dummies, simulated/ embedded/standardized patients.
The Ear-T is compatible with standard ThermoScan® lens filters.

FULL-DAY SIMULATIONS

Powered by rechargeable lithium batteries (up to 8 hours of continuous operation).

CONFIGURABLE MEASUREMENT UNIT

Works in °C and °F.

NO ISSUE PASSING THROUGH THICK WALLS

Bluetooth BLE link over 15 meters.

Designed for **tympanic temperature** assessment scenarios.

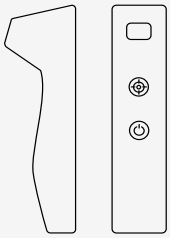

SHOP HERE

SKU: FTH01

Forehead-T

SIMULATED FOREHEAD THERMOMETER

ENABLES ADVANCED SCENARIOS

Allows a wide range of “temperature readings”.

Equipped with a trigger that enables both a notification on the instructor’s control app or the usage of the PRESET feature.

FACILITATES TRAINING

Beep on measurement.
Works with dummies, simulated/ embedded/standardized patients.

FULL-DAY SIMULATIONS

Powered by rechargeable lithium batteries (up to 8 hours of continuous operation).

CONFIGURABLE MEASUREMENT UNIT

Works in °C and °F.

NO ISSUE PASSING THROUGH THICK WALLS

Bluetooth BLE link over 15 meters.

SKU: SDA01

Sed-A

ANESTHESIA MONITOR SIMULATOR

• BEST *SELLER* •

ADVANCED SCENARIOS

Replicates anesthesia states and transitions in real time, including rare and critical cases. Includes preset scenarios and lets you create your own.

FACILITATES TRAINING

Optimized for workshops and high-volume training. Perfect for safe practice and easy scenario sharing with peers.

FULLY CUSTOMIZABLE

Create custom states, signals, and scenarios tailored to your training needs.

STAND INCLUDED

The Sed-A comes on a medical-grade rolling stand with optional mounting capabilities, ensuring seamless integration into any training environment.

USER-FRIENDLY

Intuitive integration of consciousness states and EEG signals for efficient, hands-on training.

Designed for **anesthesiology** training scenarios.

ENABLES ADVANCED SCENARIOS

Allows you to simulate various blood sugar measurements.

FACILITATES TRAINING

Compatible with low, medium, and high-fidelity manikins or with a simulated/standardized patient. Compatible with valid and/or expired Accu-Chek Inform II, Contour Next, and other test strips of similar width and thickness. Can simulate readings with real or artificial blood, or none at all.

INCLUDED ACCESSORIES

1m charging cable for Gluco III
2m charging cable for Gluco III +

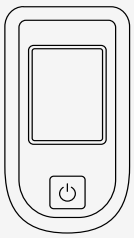

FREQUENTLY BOUGHT WITH

HemoTouch Kit
SKU: LAK01

SKU: GLM02

Gluco-Mini

SIMULATED GLUCOMETER

ENABLES ADVANCED SCENARIOS

Allows you to simulate various blood sugar measurements.

FACILITATES TRAINING

Compatible with low, medium, and high-fidelity manikins or with a simulated/standardized patient. Compatible with valid and/or expired Accu-Chek Inform II, Contour Next, and other test strips of similar width and thickness. Works whether you use artificial blood, real blood, or nothing at all.

HALF-DAY SIMULATIONS

Powered by a rechargeable Lithium battery (up to 4 hours of continuous operation).

FREQUENTLY BOUGHT WITH

HemoTouch Kit
SKU: LAK01

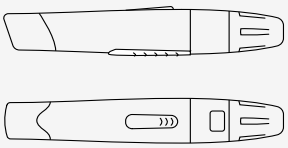

SHOP HERE

SKU: LAK01

HemoTouch Kit

SIMULATED LANCING DEVICE

* NEW *RELEASE* *

ENABLES REALISTIC SCENARIOS

A needleless lancing device simulator that produces lifelike blood drops on button press.

No needles, no silicone fingertips, no hidden blood bags.

FACILITATES TRAINING

Compatible with standardized patients and all fidelity levels of manikins. The artificial blood is non-staining and easily washable, even on high-fidelity manikins.

REFILLABLE SYSTEM

Comes with 4 refillable cartridges. Prepare up to 2 liters of artificial blood with the included powder.

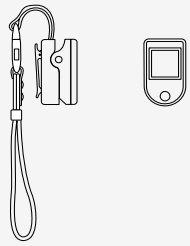

WHAT'S INCLUDED

Lancing device simulator, 4 refillable blood cartridges, fake blood powder (4oz), mixing bottle, syringe needle cap, measuring cup, funnel, stirring stick, kit bag.

SKU: OXI02

Oxi

SIMULATED PULSE OXIMETER

ENABLES ADVANCED SCENARIOS

Shows an oxygen saturation measurement (blood oxygenation measurement) and a heart rate (pulse) to simulate hypoxemia and/or hyperoxia.

FACILITATES TRAINING

Compatible with low, medium, and high-fidelity manikins or with a simulated/standardized patient. Designed to fit on human, silicone, rubber, latex and plastic fingers.

HIGH AUTONOMY

Powered by a rechargeable lithium battery with continuous 24 hours operation.

EASY TO INTERPRET DATA

A bar graph matches the heartbeat (BPM) as soon as the data is received.

INCLUDED ACCESSORIES

Comes with a wrist strap.

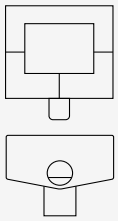

Conçu pour les scénarios de surveillance de la **SpO_2** et de la fréquence du **pouls**.

SHOP HERE

SKU: CO201

Co2-Detect

SIMULATED COLORIMETRIC CO2 DETECTOR

NEW KIND OF SCENARIO

Simulates patients' exhaled CO2 conditions, including endotracheal tube insertion statuses. Displays color changes from beige to purple to simulate varying CO2 levels.

SAME USER-FRIENDLY APP

Configures breath per minute (BPM), intensity, and sequences using Innov2Learn app.

HALF-DAY SIMULATIONS

Powered by a rechargeable lithium battery (6 hours of continuous operation).

COMPATIBLE WITH STANDARD EQUIPMENT

Port compatibility (patient end:
22 mm O.D./15 mm I.D.,
Circuit end 15 mm O.D./13 mm I.D.).

NO ISSUE PASSING THROUGH THICK WALLS

Bluetooth BLE link over 15 meters.

Designed for airway management and **intubation scenarios.**

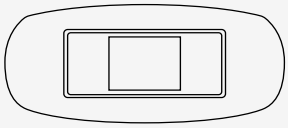

SHOP HERE

SKU: PEB01

Baby-S

* NEW *RELEASE* *

PEDIATRIC SCALE SIMULATOR

ONE OF A KIND
World's first baby scale simulator, by Innov2Learn!

BUILT FOR TRAINING
Perfect for pediatric and neonatal nursing simulations. Helps students master weight tracking, growth assessment, and medication dosing.

MOUNTS ON YOUR EQUIPMENT
Designed to fit onto existing baby scales, working or not. Magnetic mount allows quick and hassle-free attachment and removal of the BABY-S.

MULTI-UNIT SUPPORT
Select your preferred unit:
Kg, Lb, or Oz.

Designed for training and **pediatric skill stations.**

SHOP HERE

SKU: VQK01

VoiceQast Kit

• BEST *SELLER* •

ALL-IN-ONE AUDIO SYSTEM

READY TO USE

Delivered fully prepped, this system is a high-quality, integrated, and secure audio solution that replaces traditional walkie-talkies.

ADAPT YOUR VOICE TO ANY SCENARIO

Transform your voice in real time (female, male, child, senior) to match roles and reduce vocal strain.

CLEAR & SECURE BROADCAST

Send clear instructions or urgent messages with a stable, interference-free connection, directly through the Innov2Learn app.

WHAT'S INCLUDED

The kit includes a microphone, a tablet in a protective case, a Bluetooth receiver earpiece, spare ear tips, a miniature speaker, three USB chargers, three USB-C cables, and a protective carrying case.

Designed for **immersive simulation communication.**

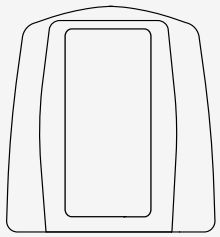

SHOP HERE

SKU:SPO03

SpotV2

SIMULATED VITAL SIGNS MONITOR

ENABLES ADVANCED SCENARIOS

Allows you to push/show the following measures directly on your Welch Allyn Spot Vital signs: Temperature, heartbeat, oxygen rate, systolic and diastolic pressure.

FACILITATES TRAINING

Compatible with low, medium, and high-fidelity manikins or with simulated/standardized patients.

HALF-DAY SIMULATIONS

Powered by a rechargeable lithium battery (4 hours of continuous operation).

IMPROVED DESIGN

Mounting brackets now feature strong magnets, allowing you to easily remove the display when access to the original screen is needed. Industrial-grade double-sided tape on the pads ensures secure attachment to existing monitors, without damaging the surface.

INCLUDED ACCESSORIES

A set of two rails with tape (preinstalled on your SpotV2).

FREQUENTLY BOUGHT WITH

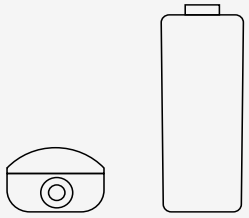

SP Trigger
SKU: TPT01

SHOP HERE

SKU: TPT01

SP Trigger

ACCESSORY
Thermo
SpotV2

ENABLES PRESET READINGS

Since the Thermo, Thermo+ and SpotV II aren't equipped with a sensor to tell if the probe has been placed in an actor's mouth, the SP can trigger a detection. This way, either the instructor gets notified on the app or the PRESET feature is enabled.

COMPATIBLE WITH OTHER TRAINING DEVICES

Pairs with the Thermo, Thermo+ and SpotV II, via the app interface upon selection.

HIGH AUTONOMY

Powered by a rechargeable lithium battery with continuous 24 hours operation.

INCLUDED ACCESSORIES

Comes with a USB-C cable.

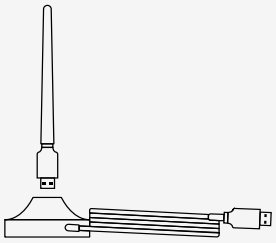

Designed to be used along with **Thermo, Thermo + or SpotV2** by a standardized/simulated patient.

SHOP HERE

SKU: DGL01

Dongle

DESKTOP EXTENSION BLUETOOTH MODULE

• BEST *SELLER* •

STREAMLINE DEVICE CONNECTIVITY

In settings with complex architectural layouts where control rooms and simulation areas are far apart? The Dongle is the ideal solution if you'd rather not use a mobile device or tablet for device control.

This robust device enhances connectivity, allowing pairing up to 150 meters away with its powerful antenna.

Connect the Dongle to your Mac or PC to maintain seamless control over your simulations, ensuring efficient and uninterrupted operation.

It is perfect for settings requiring extended range without compromising on performance.

Seamless device control, **up to 150 meters away.**

FREE DOWNLOAD

App to use the dongle on a PC or MAC is Free of charges, and can be found in the download section of our website!

GET IT ON Google Play

Web Browser (Chrome only)

APP OVERVIEW

REAL-TIME

Real-time value transmission. If the simulation takes an unexpected turn, instructors can adjust values in real time, based on the learner's actions.

PRESET

Pre-record a value for devices with sensors, which will be sent when a detection is triggered.

BLAST

Easily send the same value to multiple selected devices.

SCENARIO

Pre-record a sequence of values to send to a device type, name it, and share it with colleagues (if using the same account).

Testimonials

"We use their devices everyday and they work perfectly everytime!!! They are amazing!

Mohammed A. - Miami University
★★★★★ Google Review

"So attentive to the needs of the different professions! Absolutely brilliant, well-adapted products that are always evolving! Innov2Learn is undeniably synonymous with continuous improvement!

Marie-Pier B.
★★★★★ Google Review

"Great service from Mike. He is very attentive to our needs.

Veronique B. - Cégep de Lanaudière
★★★★★ Google Review

"A friendly, dynamic, and innovative company serving education sciences! 100% Quebec-based and destined for international expansion!

Viviane F. - RN, MEd
★★★★★ Google Review

"We love these products. Most recently we used the Glucometer in our Simulation and the realism for the students was great!

Sami R. - Director of Simulation
★★★★★ Google Review

"We have used the devices in simulation. Our students appreciate their realism, and they are easy to work with.

Angela T.
★★★★★ Google Review

"Innov2Learn is an amazing company to work with! They're creative, reliable, and truly care about delivering the best results. Mike is fantastic, his passion and drive really shine through in everything he does. Couldn't recommend them more!

V.S J.
★★★★★ Google Review

"Great products, great people. Highly recommended.

Niki

Testimonials

Innov2Learn, a company that listens to our needs and, above all, meets them. I have always been satisfied with Innov2Learn's services, ever since the company started. Thank you, dear team, for meeting the needs of nursing education!

Luc G.
★★★★★ Google Review

Excellent service and high-tech training equipment

Patrick R. - Simulation Technician
★★★★★ Google Review

Always a pleasure to talk with Mike. Very open and attentive to our needs!

Audrey
★★★★★ Google Review

What a great company! Love their innovative products!
A must-have for every educator and student in the health sector.

Charlotte B.A.
★★★★★ Google Review

Je recommande fortement leurs services : il est facile de travailler avec eux et ils ont rendu tout le processus fluide. Merci encore!!

Justin M.
★★★★★ Google Review

Great products, great team to work with when you have questions or suggestions to make

Rodg P.
★★★★★ Google Review

Using the glucometer and the thermometer made our simulations more realistic. This has reduced the number of interventions made by technicians or teachers during the course of HFS.

Sonia L. - Practical Technician, Educational Program
★★★★★ Google Review

I had a GlucoIII+ simulated glucometer repaired. We were kept well informed and the service was exceptional.

Lori L.
