INNOV2LEARN

No sticky notes.
No misleading cues.
No shouting.
No broken immersion.
No complicated setup.
No simulation scars.

Innov2Learn

The True-Feel Simulated Point-of-Care devices

Designed for use with both Simulated Participants (SPs) and low- to high-fidelity manikins to boost engagement, realism, and communication between healthcare professionals, while avoiding shouting and "simulation scars."

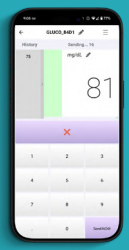

Innov2Learn's Easy-To-Use App

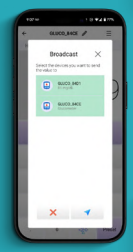

REAL-TIME

Adjust readings in real time to match learner actions without pausing the scenario or breaking immersion.

PRESET

Preload a single reading per device so it is sent automatically when a detection is triggered.

BLAST

Send the same value to multiple selected devices at once for faster, smoother group scenarios.

AUTOMATION

With Auto-connect enabled, trigger-based readings are sent automatically without requiring a device connection, streamlining delivery and reducing missed cues.

Simulation Equipment

Designed for Simplicity & Realism

Gluco3 / Gluco3+

Hospital-format glucometers for instructor-controlled point-of-care testing. Battery life: 4h (regular) – 8h (plus version).

SKU: GLU03/GLU04

Gluco-mini

Compact pocket-style glucometer for bedside and skills-lab scenarios.

SKU: GLM02

HemoTouch Kit

New Release

Needle-less lancing simulator with refillable artificial-blood cartridges.

SKU: LAK01

Thermo / Thermo+

Hospital-format oral and rectal temperature simulation. Battery life: 4h (regular) – 8h (plus version).

SKU: THE02/THE03

Rectal Probe

Automatic rectal-mode probe for Thermo and Thermo+.

SKU: REC01

SP Trigger

SP-operated trigger for preset Thermo, Thermo+ and SpotV II readings.

SKU: TPT01

SpotV2

Controllable vital-sign display overlay for compatible rolling monitors.

SKU: SPO03

Ear-T

New Release

Instructor-controlled tympanic temperature simulation.

SKU: ETH01

Forehead-T

Contactless simulated temperature readings for rapid assessment workflows.

SKU: FTH01

Oxi

Simulated SpO2 and pulse readings on human or manikin fingers.

SKU: OXI02

Baby-S

New Release

Instructor-set infant weight on an existing pediatric scale.

SKU: PEB01

CO2-Detect

Colorimetric CO2 confirmation for ventilation and airway training.

SKU: CO201

Sed-A

Best Seller

Sedation monitor with realistic EEG states for anesthesia training.

SKU: SDA01

VoiceQast Kit

Best Seller

Voice transformation, sound playback and discreet SP cueing.

SKU: VQK01 COLORS:

SYHM-Controller

Rugged tablet preconfigured to control up to 16 simulators.

SKU: CTR01

Dongle

Best Seller

Extended-range Bluetooth control for Windows and macOS.

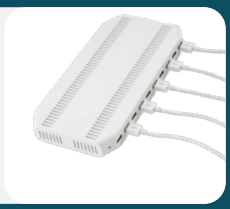

SKU: DGL01

CHARGING STATION

Charges up to 10 devices; regional models for US/Canada, UK, Europe and Australia.

SKU: Y-2190D01-US / -UK / -EU / -AU

REGIONAL CHARGER

Individual power adapter for US/Canada, UK, Europe or Australia.

SKU: USC01 / UKC01 / EUC01 / AUC01
